Product Information Sheet

Enviroblue

Heavy-duty, quick-breaking water-based degreaser

Description
Enviroblue is a heavy-duty environmentally preferable, water-based product specifically formulated for degreasing and pressure washing in workshops, mining, oil rigs, etc.

Features and Benefits
- Advanced formulation to remove oils and grime from non-porous, washable hard surfaces.
- Suitable for use underground (non-flammable and hydrocarbon free).

Use Directions
Enviroblue is excellent for removing grease and grime from a wide range of hard surfaces. Enviroblue can be used for engine degreasing to workshop floors. Enviroblue is not recommended for general cleaning of glass or painted surfaces, as if left to dry on these surfaces, it may leave a residue or adversely affect the surface.

- General Cleaning (Light Soil) – Mop solution containing 40mL of Enviroblue to each litre of water.
- Workshop (Medium Soil) 50mL of Enviroblue per litre of water
- Degreasing (Heavy Soil) – Use from 250mL to 500mL per litre of water depending on soiling.

Enviroblue used at strength 20mL per litre is an excellent spray on, wipe off cleaner.

After use, rinse thoroughly with clean, potable water before the product dries to remove all residue.

Safety Information
Refer to our product safety data sheet (SDS) for more information or consult your Chemform representative for further assistance.

Packages
20L, 205L, 1000L
