LC Concentrate Range

Concentrated system for on-premises laundries

Description

The LC range is a concentrated on-premises laundry system that comprises of chemicals that are effective, economical in use, safe to handle and easy to store.

Features and Benefits

- Concentrated - saves packaging which reduces waste and carbon footprint.
- Automatically dispensed - ensures chemical dose is correct, every time, which reduce chemical wastage and ensures effective results.
- Safety - All 5L LC products utilise a product safety insert for discharge via Chemform automated feed systems. This eliminates contact with the product.
- Compact - All products are off the floor for safety and cleanliness.
- Suitable for all wash conditions.
- Savings - Can be used for cold water washing which reduces rinse programs & saves significant water and energy costs.
